

PARKER

Magnetic Particle Inspection Instruments

Return Calibration Form

Please complete and print this form to include with the instruments when returning them for calibration.

Please ship all instruments to our physical address

Parker Research Corporation
2642 Enterprise Rd. W.
Clearwater FL 33763
U.S.A.

Parker Magnetic Yokes and PL Series Coils	\$47.00
TB-10 Weight Lift Test Bars	\$47.00
DA750/1500 Amp Magnetic Inspection Units	\$187.50
MG-25 Magnetic Field Indicator	\$75.00
5100 Series Gaussmeters	\$200.00

Parker Magnetic Yokes, PL Series Coils and TB-10 Test Bars are certified and traceable to NIST. Please note calibration/certification takes up to one week.

Parker DA750/1500 Amp Magnetic Inspection Units are certified and traceable to NIST. Please note calibration/certification takes up to one week.

MG-25 Magnetic Field Indicators are certified in accordance with ASTM E1444, traceable to NIST. Calibration includes readings taken at three points in each range and each polarity including zero. Please note calibration/certification takes 2-3 days.

5100 Series Gaussmeters are certified in accordance with E1444, traceable to NIST. Calibration includes readings taken at three points in each range and each polarity including zero. Please note calibration/certification takes 2-3 days.

Is the instrument under warranty?	<input type="checkbox"/> Yes <input type="checkbox"/> No
