

SAFETY DATA SHEET

1. Identification

Product identifier	SIR-CHEM [®]	DRY POWDER 63 RED
Other means of identification	Not available.	
Recommended use	Non-destructive t	esting.
Recommended restrictions	None known.	
Manufacturer / Importer / Suppli	er / Distributor i	nformation
Company name	Circle Systems, I	nc.
Address	1210 Osborne Ro	d.
	St. Marys, GA 31	558
Telephone	912-729-2735	
E-mail	customerservice	@circlesafe.com
Emergency phone number	Chem-Tel	800-255-3924 (US & Canada); 1-813-248-0585 (International)

2. Hazard(s) identification

Physical hazards	Not classified.
Health hazards	Not classified.
OSHA defined hazards	Combustible dust.
Label elements	
Hazard symbol	None.
Signal word	Warning.
Hazard statement	May form combustible dust concentrations in air.
Precautionary statement	
Prevention	Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Prevent dust accumulation to minimize explosion hazard.
Response	Remove and wash contaminated clothing before re-use. In case of fire: Use appropriate media for extinction.
Storage	Store away from incompatible materials.
Disposal	Dispose of contents/containers in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	Not classified.
Supplemental information	Not applicable.

3. Composition/information on ingredients

Mixtures		
Chemical name	CAS number	%
Iron Powder	7439-89-6	> 95
Pigment Red	5160-02-1	< 3

4. First-aid measures	
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Do not rub eyes. Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed	Dust may cause eye, skin and re	spiratory tract irritation.
Indication of immediate medical attention and special treatment needed	Provide general supportive meas	ures and treat symptomatically.
General information	Ensure that medical personnel at to protect themselves.	e aware of the material(s) involved, and take precautions
5. Fire-fighting measures		
Suitable extinguishing media	Water fog. Foam. Dry chemical p carefully to avoid creating airborr	owder. Carbon dioxide (CO2). Apply extinguishing media le dust.
Unsuitable extinguishing media	Do not use water jet as an exting	uisher, as this will spread the fire.
Specific hazards arising from the chemical		ng dust; fine dust dispersed in air in sufficient concentrations source is a potential dust explosion hazard.
Special protective equipment and precautions for firefighters		us and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions		o not breathe fumes. Move containers from fire area if you spray to cool unopened containers.
General fire hazards	Heat may cause the containers to	o explode. May form combustible dust concentrations in air.
6. Accidental release mea	sures	
Personal precautions, protective equipment and emergency procedures	surfaces, as these may form an e sufficient concentration. Use only	ay. Dust deposits should not be allowed to accumulate on xplosive mixture if they are released into the atmosphere in non-sparking tools. Wear appropriate personal protective tilation. Local authorities should be advised if significant
Methods and materials for containment and cleaning up		no smoking, flares, sparks or flames in immediate area). i.e., clearing dust surfaces with compressed air).
	Large Spills: Sweep or shovel up Following product recovery, flush	material and place in a clearly labeled container for waste. area with water.
	Small Spills: Collect dust using a	vacuum cleaner equipped with HEPA filter.
	Never return spills to original con SDS.	tainers for re-use. For waste disposal, see section 13 of the
Environmental precautions	Avoid discharge into drains, wate	r courses or onto the ground.
7. Handling and storage		
Precautions for safe handling	ensure that dusts do not accumu charges when subjected to the fr precautions, such as electrical gr exhaust ventilation is recommend	cumulation. Routine housekeeping should be instituted to ate on surfaces. Dry powders can build static electricity ction of transfer and mixing operations. Provide adequate ounding and bonding, or inert atmospheres. Explosion proof led. Wear appropriate personal protective equipment. practices. Avoid prolonged exposure.
Conditions for safe storage, including any incompatibilities		a dry, cool and well-ventilated place. Store away from on 10 of the SDS). Keep away from heat, sparks and open
8. Exposure controls/pers	sonal protection	
Occupational exposure limits	r Air Contaminants (29 CFR 1910	.1000)
Components	Туре	Value

Components	Туре	Value
Pigment red (CAS 5160-02-1)	TWA	0.5mg/m3
US NIOSH Pocket Guide to C	hemical Hazards: Recommended e	exposure limit (REL)
Components	Туре	Value
Pigment red (CAS 5160-02-1)	TWA	0.5mg/m3
US Workplace Environmenta	I Exposure Level (WEEL) Guides	
Components	Туре	Value
Pigment red (CAS 5160-02-1)	TWA	1mg/m3
Biological limit values	No biological exposure limits noted	for the ingredient(s).
Exposure guidelines	No exposure standards allocated.	
Appropriate engineering controls	applicable, use process enclosures	•
Eye/face protection	Wear safety glasses with side shiel	
Skin protection		
Hand protection	For prolonged or repeated skin cor	tact use suitable protective gloves.
Other	Wear suitable protective clothing.	
Respiratory protection		tain airborne concentrations below recommended exposure cceptable level (in countries where exposure limits have no spirator must be worn.
	Wear appropriate thermal protective	e clothing, when necessary
Thermal hazards		e clothing, when hecessary.

9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Powder.
Color	Red.
Odor	Odorless
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	2795 °F (1535 °C)
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit – lower (%)	Not available.
Flammability limit – upper (%)	Not available.
Explosive limit – lower (%)	Not available.
Explosive limit – upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.

Not available.
Not available.
Not available.
Not available
Not available.
Insoluble in water.
2.5 at 68 °F (20 °C)

1	I O .	Stability	and	reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, sparks and open flame. Minimize dust generation and accumulation. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of ex	xposure	
Ingestion	Expected to be a low ingestion ha	izard.
Inhalation	Inhalation of dusts may cause res	piratory
Skin contact	irritation. Dust or powder may irrit	ate the skin.
Eye contact	Dust may irritate the eyes.	
Symptoms related to the physical, chemical and toxicological characteristics Information on toxicological effe	Dust may cause eye, skin and res	spiratory tract irritation.
Acute toxicity		sual industrial or commercial handling by trained personnel.
Components	Species	Test Results
Iron Powder (CAS 7439-89-6) Acute Oral		
LD50	Rat	30 g/kg
Skin corrosion/irritation	Prolonged skin contact may cause	e temporary irritation.
Serious eye damage/eye irritation	Direct contact with eyes may cause	se temporary irritation.
Respiratory sensitization	Not a respiratory sensitizer.	
Skin sensitization	This product is not expected to ca	
Germ cell mutagenicity	No data available to indicate prod are mutagenic or genotoxic.	uct or any components present at greater than 0.1%
Carcinogenicity	This product is not considered to	be a carcinogen by IARC, ACGIH, NTP, or OSHA.
IARC Monographs. Overall Ev	valuation of Carcinogenicity	
Pigment Red (CAS 5160-0	2-1) 3 Not	classifiable as to carcinogenicity to humans.
Reproductive toxicity	This product is not expected to ca	ause reproductive or developmental
Specific target organ toxicity – single exposure	effects. Not classified.	
Specific target organ toxicity – repeated exposure	Not classified.	
Aspiration hazard Chronic effects	Not an aspiration hazard. Prolonged inhalation may be harm	

	The product is not classified as environmentally hazardous. However, this does not exc	
Persistence and degradability	possibility that large or frequent spills can have a harmful or damaging effect on the environment of the spin of	
Bioaccumulative potential	No data available for this product.	
Mobility in soil	Not available.	
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone cropotential, endocrine disruption, global warming potential) are expected from this compo	
13. Disposal consideration	i	
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.	
Waste from residues / unused products	Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose of in accordance with local regulations. Empty containers or liners retain some product residues. This material and its container must be disposed of in a manner (see: Disposal instructions).	s may safe
14. Transport information		
DOT Not regulated as dangerous	oods.	
IATA		
Not regulated as dangerous (oods.	
Not regulated as dangerous	pods.	
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.	
15. Regulatory information
