

SAFETY DATA SHEET

1. Identification Product identifier

CIRCLESAFE[®] 820A

Not available.		
Non-destructive testing.		
None known.		
Manufacturer / Importer / Supplier / Distributor information		

Company name Address	Circle Systems, Inc. 1210 Osborne Road		
	Saint Marys, GA 31558		
Telephone	912-729-2735		
E-mail	customerservice@circlesafe.com		
Emergency phone number	Chem-tel 800-255-3924 (US & Canada); 1-813-248-0585 (International		

2. Hazard(s) identification

.,		
Physical hazards	Gases under pressure	Compressed gas
Health hazards	Reproductive toxicity	Category 1B
OSHA defined hazards	Not classified.	
Label elements		
Signal word	Danger	
Hazard statement	Contains gas under pressure; may explode if heated. May damage fertility or the unborn child.	
Precautionary statement		
Prevention	1	t handle until all safety precautions have been read ective clothing/eye protection/face protection.
Response	If exposed or concerned: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.	
Storage	Store locked up. Protect from sunlight. Store	in a well-ventilated place.
Disposal	Dispose of contents/container in accordance	with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	Not classified.	

3. Composition/information on ingredients

Mixtures		
CAS number	%	
10043-35-3	<5	
124-38-9	<5	
1317-61-9	<5	
	10043-35-3 124-38-9	

4. First-aid measures Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist. Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	High concentrations: Inhalation of propellant may cause respiratory irritation, dizziness, nausea, or drowsiness.
Indication of immediate medical attention and special treatment needed	Treat symptomatically. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If exposed or concerned: Get medical advice/attention.

5. Fire-fighting measures

<u> </u>	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions	Containers should be cooled with water to prevent vapor pressure build up.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep upwind. Keep out of low areas. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. The product is immiscible with water and will spread on the water surface. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the
	SDS.
Environmental precautions	Prevent further leakage or spillage if safe to do so.
7. Handling and storage	
7. Handling and storage Precautions for safe handling	Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers when transferring material. Avoid inhalation of aerosols. Use only in well-ventilated areas. Do not re-use empty containers.
	missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers when transferring material.

Occupational exposure limits			
	or Air Contaminants (29 CFR 1910.10	•	
Components	Туре	Value	
Carbon dioxide (CAS 124-38-9)	PEL	5000 ppm	
US ACGIH Threshold Limit	Values		
Components	Туре	Value	Form

Upper/lower flammability or explosive limits		
Flammability limit – lower (%)	Not available.	
Flammability limit – upper (%)	Not available.	
Explosive limit – lower (%)	Not available.	
Explosive limit – upper (%)	Not available.	
Vapor pressure	Not available.	
Vapor density	Not available.	
Specific gravity	1 at 68°F (20°C)	
Solubility(ies)		
Solubility (water)	Soluble.	
Partition coefficient	Not available.	
(n-octanol/water)		
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	
Other information		
VOC (Weight %)	Not available.	
10. Stability and reactivity		
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.	
Chemical stability	Stable under normal temperature conditions.	
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
Conditions to avoid	Heat, flames and sparks. Contact with incompatible materials.	

Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

TT: Toxicological informa			
Information on likely routes of	of exposure		
Ingestion	Expected to be a low ingestion hazard.		
Inhalation	May cause irritation to the respiratory system.		
Skin contact	May cause skin irritation.		
Eye contact	May cause eye irritation.		
Symptoms related to the physical, chemical and toxicological characteristics	High concentrations: Inhalation of propellant may cause respiratory irritation, dizziness, nausea, or drowsiness.		
Information on toxicological	effects		
Acute toxicity	Expected to be a low hazard for	Expected to be a low hazard for usual industrial or commercial handling by trained personnel.	
Components	Species	Test Results	
Boric acid (CAS 10043-35-3)			
Acute Dermal			
LD50	Rabbit	> 2000 mg/kg	
Oral			
LD50	Rat	2660 mg/kg	
Butendioic acid, sulfo-1,4-bis(2	-ethylhexyl) ester sodium salt (CAS 5	77-11-7)	
Acute Oral			
LD50	Mouse	2.64 g/kg	

Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.		
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.		
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.		
Reproductive toxicity	May damage fertility or the unborn child.		
Specific target organ toxicity – single exposure	No data available.		
Specific target organ toxicity – repeated exposure	No data available.		
Aspiration hazard	No data available.		
Chronic effects	Prolonged inhalation may be harmful.		
12. Ecological information			
Ecotoxicity	Not expected to be harmful to aquatic organisms.		
Persistence and degradability	No data is available on the degradability of this product.		
Bioaccumulative potential	No data available for this product.		
Mobility in soil	Not available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.		
13. Disposal considerations	6		
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.		
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).		
14. Transport information
